Supporting Your
School's Needs

Aroa EPS understands the pressures schools face with EHCPs and the need for individual assessments, but our expertise goes beyond that. We work flexibly and collaboratively to fit your school's needs, and with a focus on working with staff and environments we can create long-term impact.

HOW WE CAN SUPPORT YOUR SCHOOL:

- **Senior Leadership Consultations** - Strategy development and collaborative problem-solving.
 - **Whole class observations & staff support** - Helping teachers and key-stage teams problem-solve effectively.
 - **Learning space development** - Supporting the design of resourced provisions, breakout spaces, and hubs.
 - **Research & progress tracking** - Reviewing interventions and resource provisions.
 - **Process & policy development** - Tailored support for areas like EBSA, social interactions, and early years play.
 - **Staff supervision & consultation** - Guidance for ECTs, LSAs, and staff in new roles.
 - **Training sessions** - Whole-school or targeted training for key staff groups.
 - **Transition planning** - Helping with early years, key stage, and secondary transitions.
 - **Inclusive practices & sensory audits** - Supporting universal strategies for all students.

Next year, we are also launching **Aroa Training Federation**: a community hub to access an online training portal, professional workshops and support specially for LSAs / TAs.
