

TRAINING FEDERATION

The Community for
Real Tools. Real Training.
Real Impact.

The Aroa Training Federation is an online community space for learning, support and professional development for Teaching Assistants (TAs) / Learning Support Assistants (LSAs).

This community gives access to a 10-week online training programme designed to help support staff build practical skills and confidence when working with children with SEND.

THE TRAINING FOCUSES ON:

- Understanding and recognising barriers to learning
- Communicating effectively with parents, carers and professionals
- Planning and putting support strategies into place
- Setting realistic targets and tracking outcomes
- Reviewing progress and making changes when needed

The programme gives support staff the tools to know when something isn't working, and the confidence to adapt. It empowers them to trust their judgement, take action and feel sure they are doing the right thing for the children they are supporting.

It also supports staff in understanding how to make professional recommendations work in their own classrooms, curriculums and school settings.
